

Secondo corso informatico sulle reti anonime: gli indici di ricerca su rete Freenet.

Utenti: Navytex, AnonyMe, NosNyM007, Lauraghost69, LilyStealth92.

Siti, pagine, blog (Flog) per navigazione su rete Freenet.

By Exodus1984, 28 marzo 2015.

Tutti questi indirizzi sono disponibili su rete Freenet, alcuni possono non essere visibili. Questi archivi cambiano in continuazione, verificare pertanto lo stato degli indirizzi chiave e la loro validità in rete Freenet.

Lezione 2, corso reti anonime, seconda edizione, analisi e programmazione Freenet.

Oggetto: creare un programma di ricerca e validazione usando il seguente archivio dati, con filtri di ricerca per le parole chiave "crypt".
I dati filtrati dovranno essere disponibili in un nuovo file che contenga solo le definizioni richieste, il programma deve anche validare l'esistenza in rete dei siti e flog salvati e filtrati.
