

My wife in the summer has a habit, perhaps because of the heat and perhaps for convenience, to turn for home in her slip, but unfortunately for her, turn black slip in front of me, has the same effect as a red flag waved in front a bull in heat, and so, as I used to because of the heat, to sit in the house naked, what happens then?

Happens that I get a nice hard cock and pull and so for my lady there is no escape.

Farewell housecleaning.

The I catch unceremoniously and put on her knees ...

... S

... mercilessly. Down in front of my cock, hard as a stick, while the view of the Black slip tense between those thighs open almost makes me even more excited.

Now I see red, I'm excited like an animal and I just want to empty my balls into her throat or if she will, in her cunt or her ass, let her decide.

The only thing I want to let me enter in her mouth without hinder me too much and so I slam my cock without mercy in her mouth and let her have fun sucking.

Her slutty mouth moves expert and I do leave, while I close my eyes and get ready to come in her mouth with a wave of sperm that almost suffocates ...

My god, I think as I cum in a wave of pleasure, she is a slut the woman that I married and how much I love the summer, spent to be suck off the intimacy of our house.

Who would not like to do it with his woman?
