

TDM900 TECHNICAL SPECIFICATION

ENGINE
 Type Liquid-cooled, 4-stroke, forward inclined parallel twin cylinder, DOHC, 5 valves
 Displacement 897 cc
 Bore and stroke 92 x 67.5 mm
 Compression ratio 10.4 : 1
 Max. power 63.4 kW (86.2 HP) @ 7,500 rpm
 Max. torque 88.8 Nm (9.1 kg-m) @ 6,000 rpm
 Lubrication Dry sump
 Fuel supply Electronic fuel injection
 Clutch type Wet, multiple-disc
 Ignition TCI (digital)
 Starter system Electric
 Transmission Constant mesh, 6-speed
 Final transmission Chain

CHASSIS
 Front suspension Telescopic fork
 Front wheel travel 150 mm
 Rear suspension Swinging arm (Link-type suspension)
 Rear wheel travel 133 mm
 Front brake Dual discs, Ø 298 mm
 Rear brake Single disc, Ø 245 mm
 Front tyre 120/70 ZR18M/C (59W)
 Rear tyre 160/60 ZR17M/C (69W)

DIMENSIONS
 Overall length 2,180 mm
 Overall width 800 mm
 Overall height 1,290 mm
 Seat height 825 mm
 Wheelbase 1,485 mm
 Min. ground clearance 160 mm
 Dry weight 190 kg
 Fuel tank capacity 20 litres
 Oil tank capacity 4.7 litres

As unique as you.

The new TDM900 is a machine that refuses to be categorised. Avant-garde commuter? Mountain road cornering ace? Urban assault bike? Or, two-up tourer? Only you can decide what kind of bike this is.

The 5-valve parallel twin engine with unique 270° crankshaft has been completely re-designed with a new fuel injection system and a displacement increase to 900 cc, for more gutsy response across the rev range. This compact powerplant is mounted in a new all-aluminium chassis.

Improved suspension and brake components deliver superb handling characteristics in town, on the highway, or on mountain roads. Stylistically the TDM is in a class of its own. The stunning post-modern design of the cowling and bodywork feels as good as it looks, thanks to a combination of ergonomic engineering and good taste. So, compared to the TDM850 the new TDM900 is considerably more lighter, powerful and stylish.

TDM900. As unique as you.

What's New

Frame

Lightweight handling qualities come courtesy of a new all-aluminium frame with detachable subframe and aluminium swingarm. Resulting in a dramatic reduction in weight, the new chassis delivers brilliant cornering performance and high manoeuvrability.

Engine

An increase in displacement to 900 cc combined with the unique 270° crankshaft give this liquid-cooled DOHC 5-valve parallel-twin engine punchy acceleration and impressive performance in town or in the mountains, and the all-new 6-speed gearbox ensures effortless shifting.

Fuel Injection

The new fuel injection delivers a seamless spread of torque power, right around the dial. In addition to enhanced throttle response, this clean-running system helps the bike meet strict Euro 2 exhaust emission standards.

Front Suspension/Brakes

The front end went on a diet, too. The long-travel front forks mount a lighter wheel and the dual discs run with lightweight new monobloc front brake calipers, for powerful, responsive braking in town or on mountain roads.

Rear Suspension/Brakes

The single-shock rear suspension runs with a new, lightweight yet very stiff aluminium swingarm. The new aluminium-body shock with Monocross linkage system is fully adjustable, allowing you to tune the chassis for sport, touring or commuting use. Compact rear disc brake is very responsive.

Headlight

Nestled cleanly in the cheeky yet aerodynamic front cowl are a pair of bright, multi-reflector headlights that cut a broad swath of light across dark roads.

Instruments

Compact new instrument package includes an analog tachometer with liquid-crystal speedometer and displays. Lightweight and easy to view, it keeps you fully informed of the TDM's operating conditions.

Rear Cowl

Fashion meets function in the tastefully designed rear cowl with combination aluminium luggage rack/grab-rail. High-visibility tail light enhances the machine's after-dark visibility.

Mufflers

Dual, large-capacity mufflers enhance exhaust efficiency and contribute to the new TDM900's impressive power characteristics and great sound.
