

## **THE STONERS - Italian Rolling Stones Tribute Band (Roma)**

**Tribute the World's Greatest Rock'n'Roll Band, The Rolling Stones.**

The Stoners are a band of Italian musicians who have decades of experience under their belts. In summer 2009 The Stoners packed houses with their energetic shows from Boston down to Washington D.C., their 2009 U.S. Summer Tour (second Stoners tour of the States). The Stoners emit a contagious energy that begins at the instant the first guitar chord is struck and lasts well beyond the moment that the crowd chants beneath the stage for "one more song!". The musicians of The Stoners grew up listening to the Stones while Jagger and co. were in their hey-day and at the peak of their musical careers. For this reason, The Stoners have no difficulty in creating the *Rolling Stoniano* (as they say in Italian) feeling both from the first period (1964-1969) and their most recent recordings and tours. This said, The Stoners give to their audience a wonderful and faithful interpretation both musically and visually that marked then and marks now the concerts of the mythical Rolling Stones.

**THE STONERS** are The Roman Rolling Stones tribute band, playing since 2002. The band plays regularly in the Italian capital but also in all parts in the North and South of Italia. Played US Summer Tours in 2008 and 2009 and have also played in Germany

**WHY:** Because the music of the last 50 years is divided into 2 genealogical trees: on one side a group from Liverpool, which paved the way for many groups, producing melodic and "well mannered" music. On the other side, there was the creation of the ROLLING STONES, from which all other groups and music genres evolved, making history, and most importantly, the history of Rock'n'Roll.

**HOW:** With grit, passion and respect for those "bad boys" who were merely teen-agers when they began this adventure in 1962.

**WHO:** The present formation of THE STONERS is the classic one: 2 guitars, bass, drums, keyboard and sax (for the songs which featured keyboards and sax in the original Rolling Stones recordings) and vocalist.

**THE ONLY ITALIAN ROLLING STONES TRIBUTE BAND** authorized to play live to promote the most recent studio release (A Bigger Bang 2005)
