

Letter I

About this letter we remember that there are words starting with the group "*im...*" and starting with the group "*in...*" that can also be found (an often are easier to be found) starting with "*am...*" and respectively with "*an...*", or starting with "*ëm...*" and respectively with "*ën...*" (these two latter are not very usual). For many of these word the most common starting is "*am...*", or respectively, "*an...*". Then we also remember that many words starting by "*im...*", can also start by "*inn...*". All these possibilities are correct Piedmontese (here we do not report all of them).
