

## YANG Project – Questions

### Committee on Economic Affairs and Employment

The task in Santiago will be to debate on the short essay (Position Paper) and any question raised by you in connection with Economic Affairs and Employment. Take these ones as a possible guide to ignite the debate:

- Is the European Union stable from the economic point of view?
- Should the European Union continue to extend?
- What impact would have the Turkey's adherence to the European Union, economically speaking?
- What happens to the economic growth in the member states after introducing Euro?
- What about a European tax inside European Union; would it be a healthy decision for the near future?
- What if the European Central Bank will increase the number of loans given and reduce the conditions for allowing these loans?
- What do you think about the transparency of the European financial institutions?
- Should the pensions for retired persons increase?
- What is the youth impact on economic growth and employment inside European Union?
